Re: Midterm Course Critique

For this assignment, you will write a critique of 1) this course and 2) your participation in this course so far. Use memo format. No outside sources are required, and there is no length requirement.

For the critique, please describe what you feel has been the most valuable aspect of the course so far so far, as well one area that you feel could be improved. For example, you might describe specific assignments, activities, readings, discussions, or evaluation comments. Please provide details and suggestions where appropriate. Feel free to expand and discuss any aspect of the course that you feel is important. Your feedback and suggestions are appreciated and will be taken into consideration for the remainder of this semester and beyond.

Include and rationalize what grade you feel that you should receive for "professionalism" at this point in the semester, as outlined in the [syllabus](#). Please keep in mind the criteria below from the syllabus about professionalism, attendance, peer review workshops, quizzes, etc.

Submit this document online through Blackboard as an MS Word attachment on the due date.
