Re: Module 9 - Blog

For this blog, aggregate all of the writing that you might be able to use in your analytical report. Review the [Focus Worksheet](#), where you completed a draft of your abstract. Then, do the following:

1. Create post on the blog
2. Copy that abstract into the post
3. Revise it and expand if possible, making it as “final” as possible at this point
4. Post for your group members’ review

Read your group members’ postings and offer suggestions on revision for clarity and/or correction of errors.
